

Poster Set-Up: February 25(WED) 9:00AM~5:00PM

Poster Session: February 25(WED) 6:30PM~9:00PM

Simposium 10: Young Scientists Forum on Future Energy Materials and Devices

Poster No.	Control ID	Presenter	Title
S10-1	2142976	Gao, Tian	Magnetic properties and magnetocaloric effect study in TbMnFe compound
S10-2	2113606	Al-Hajry, Ali	Fabrication and Characterization of n-ZnO Hexagonal Nanorods/p-Si Heterojunction Diode: Temperature-Dependant Electrical Characteristics
S10-3	2113834	Algarni, H.	Growth and properties of Ga-doped ZnO nanostructures on silicon substrate for field emission device applications
S10-4	2113884	Algarni, H.	Aligned hexagonal ZnO nanorods on Titanium substrate: Structural, optical and field emission properties
